ABOUT ALYAAN GLOBAL

EST. 2007

Who we are

Alyaan Global is an India and UAE based Trading and Industrial Supply Company, established in 2007, serving businesses and industries across international markets through global sourcing, supply, and international trade.

We work with manufacturers, suppliers, distributors, and institutional buyers, coordinating everything from supplier identification, procurement, and quality coordination to export packing, logistics, documentation, customs coordination, and delivery through established sourcing relationships.

Values: Our values are the principles that guide how we work and build relationships.

Integrity

Transparency, accountability, and commitment in every transaction.

Quality

Quality, reliability, and consistency in everything we source and supply.

Reliability

Consistent service and dependable delivery on every commitment.

Innovation

Practical solutions that adapt to evolving trade requirements.

Partnership

Long-term relationships built on trust, responsiveness, and shared success.

Mission

To connect businesses with the Right Products, Reliable Suppliers and International Markets through a practical and dependable approach to Sourcing, Procurement and Supply.

Vision

To grow as a trusted supply and procurement partner, connecting businesses with reliable manufacturers and markets through quality, service and long-term relationships.

Global Sourcing & Supply Network

Our international sourcing and supply network connects manufacturers, suppliers and customers across key markets in Asia, the Middle East and Africa, creating reliable pathways for global trade and procurement. From sourcing and export solutions to logistics, distribution, and customs clearance, our integrated services simplify international operations and ensure quality, timely delivery, and dependable support across diverse industries.

Logistics Network & Trade Routes

Our network is built around practical trade corridors rather than fixed routes, allowing us to coordinate shipments according to product, origin, destination, cargo requirements and customer timelines.

Source

Identify and coordinate supply from suitable manufacturers and suppliers.

Consolidate

Coordinate cargo, documentation and shipment requirements according to the order.

Move

Arrange freight through appropriate logistics gateways and trade routes.

Clear

Coordinate required shipping and customs documentation and clearance processes.

Deliver

Coordinate onward movement and delivery to the customer's required destination.

Logistics Network & Trade Routes

1. Sourcing Regions

Our sourcing network extends across established manufacturing and supply markets in Asia and other international regions, allowing us to identify suitable suppliers and coordinate product movement based on customer requirements.

2. Logistics Gateways

We coordinate international shipments through established ports and logistics gateways, aligning routes and handling arrangements with the cargo, origin, destination and delivery requirements.

3. Destination Market

We support customers across India, the Middle East, Africa and selected international markets, coordinating the movement of goods from source to destination in line with their delivery requirements.

Our role is to coordinate the commercial and logistical requirements that connect supply with demand, helping customers manage international shipments with clarity and continuity from **source to destination**.

Product portfolio

EST. 2007

Our product portfolio spans a range of industrial and commercial products, sourced through established manufacturers and suppliers to meet diverse customer and industry requirements across international markets.

Commercial Kitchen Equipment

Commercial cooking, preparation, refrigeration and related kitchen equipment.

KEY APPLICATIONS

Cooking & baking lines · Refrigeration · Warewashing

Commercial Kitchen Furniture

Stainless-steel workstations, counters, sinks, storage and other commercial kitchen furnishings.

KEY APPLICATIONS

Preparation & wash areas · Stainless steel work tables · Service counters

Commercial Laundry Equipment

Commercial and industrial laundry machines and related laundry equipment.

KEY APPLICATIONS

Hotels & hospitality · Hospitals & healthcare · Commercial laundries

Product portfolio

Electrical Products

Electrical components, distribution products and related industrial electrical supplies.

KEY APPLICATIONS

Industrial plants & facilities · Infrastructure projects · Commercial buildings

Metal Pipes & Sheets

Metal pipes, tubes, sheets and related products for industrial, construction and commercial requirements.

KEY APPLICATIONS

Structural fabrication · Plant & pipework · Building & infrastructure

FIBCs

Flexible Intermediate Bulk Containers for the safe handling, storage and transportation of bulk materials.

KEY APPLICATIONS

Minerals & aggregates · Chemicals & polymers · Grain & agri bulk

Product portfolio

EST. 2007

Plastic Pallets

Reusable plastic pallets and material-handling products for storage, transport and distribution requirements.

KEY APPLICATIONS

Food & beverage · Pharmaceuticals & FMCG
· Export & cold chain

Minerals & Materials

Selected minerals, raw materials and industrial materials for commercial and industrial applications.

KEY APPLICATIONS

Desalination equipment · Ceramics & glass ·
Drilling & processing

Laboratory Furniture

Laboratory benches, workstations, storage systems and related laboratory furnishings.

KEY APPLICATIONS

Research & teaching labs · Clinical &
diagnostic labs · Pharmaceutical & QC labs

Shelving & Storage Systems

Shelving, racks and storage systems for industrial, commercial and warehouse requirements.

KEY APPLICATIONS

Warehouses & distribution centres · Retail
back-of-house · Workshops & stores

Our portfolio is flexible and requirement driven, allowing us to source products beyond standard categories where a suitable supplier and commercial requirement exist.

Products Across Industries

EST. 2007

Products for Diverse Requirements

Our products serve a range of industrial, commercial and institutional requirements across different sectors and operating environments.

Construction & Infrastructure

Metal Products, Materials, Electrical Supplies and Other Products Required Across Construction and Infrastructure Projects.

Laundry & Facilities

Commercial laundry equipment, storage and supporting products for institutional and facility requirements.

Industrial & Manufacturing

Materials, Minerals, Electrical Products, Metal Pipes, Sheets, FIBCS And Related Industrial Supplies.

Healthcare & Laboratories

Laboratory Furniture, Workstations, Storage and Related Laboratory Requirements.

Hospitality & Food Service

Commercial Kitchen Furniture, Kitchen Equipment and Related Hospitality Supplies.

Storage & Material Handling

Plastic pallets, FIBCs and related products for storage, handling and movement of goods.

Sourcing & Product Assurance

EST. 2007

From Requirement to Supply

Matching products to customer requirements through established suppliers.

Supplier Selection

Evaluating suppliers for suitability, capability, and commercial terms.

Product Specifications

Reviewing specifications, quantities, standards, and documentation.

Quality Coordination

Coordinating product checks and quality documentation before shipment.

Commercial Coordination

Managing quotations, quantities, purchasing, and order details.

Export & Logistics

Coordinating documentation, freight, customs clearance, and delivery.

Logistics & Shipping

EST. 2007

We coordinate the movement of goods from origin to destination, working with established logistics and freight partners to arrange suitable shipping, routing and delivery based on customer's requirements.

Capabilities: Our logistics capabilities support the coordinated movement of goods throughout the international shipping process, covering origin handling, freight coordination, port operations, destination release and final delivery.

Route & Freight Coordination

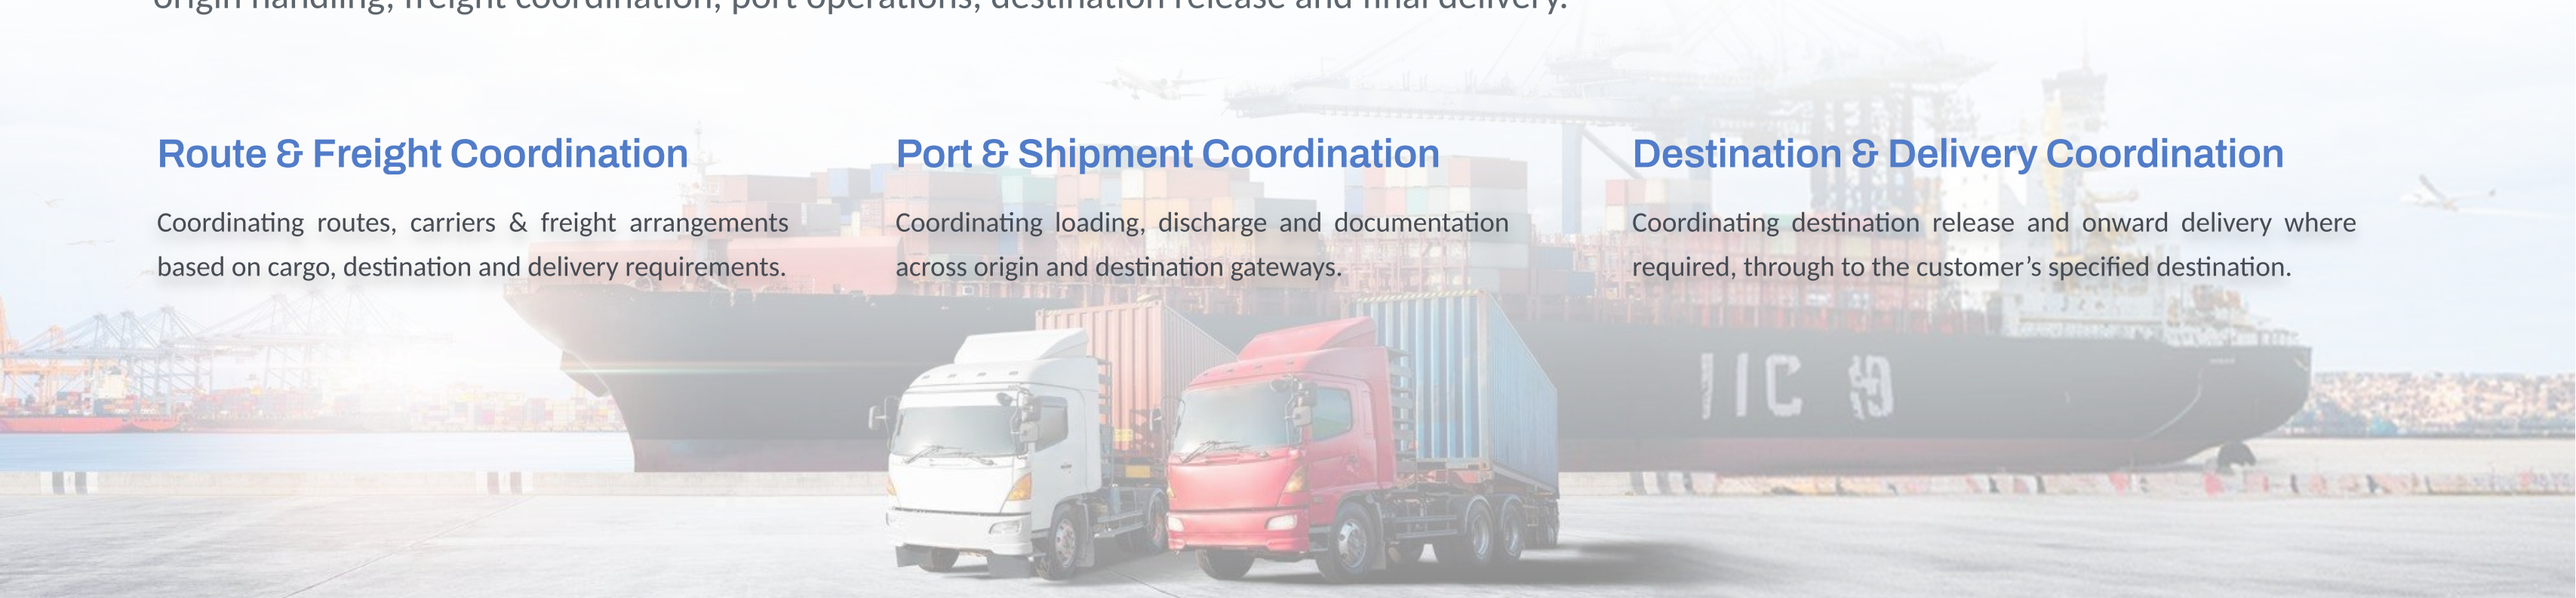

Coordinating routes, carriers & freight arrangements based on cargo, destination and delivery requirements.

Port & Shipment Coordination

Coordinating loading, discharge and documentation across origin and destination gateways.

Destination & Delivery Coordination

Coordinating destination release and onward delivery where required, through to the customer's specified destination.

Export Packing & Cargo Preparation

Packing specifications are determined according to product characteristics, destination, transport mode and customer requirements.

1. Export-quality cartons

Corrugated board rated to the load, sealed and edge-protected for multi-leg journeys.

2. Palletised shipments

Goods secured to suitable pallets for safe handling, storage and transportation.

3. Moisture protection

Liners, desiccants and barrier film guard against condensation during ocean transit.

4. Stretch wrapping

Loads wrapped and banded so they cannot shift or be tampered with in transit.

5. Container-safe loading

Weight distributed appropriately and dunnage used where required to keep cargo stable during transit.

6. Labelling & marking

Goods are packed & marked according to their cargo characteristics, handling requirements & destination-specific shipping and destination requirements.

Selected Clients, Suppliers & Partners

EST. 2007

INDUSTRIES WE SERVE

01

Manufacturing & Industrial

Industrial products, materials and components supporting manufacturing and production requirements.

02

Mining & Minerals

Products and materials supporting mining, mineral processing and related industrial operations.

03

Logistics & Warehousing

Storage, handling and material-movement products for logistics and warehouse operations.

04

Food & Beverage Processing

Products and materials supporting food processing, production and related facilities.

05

Construction & Infrastructure

Industrial, metal, electrical and material supplies for construction and infrastructure requirements.

06

Electrical & Industrial Systems

Electrical products and related supplies for commercial and industrial applications.

07

Healthcare & Laboratories

Laboratory furniture, materials and related products for healthcare and institutional environments.

08

Hospitality & Commercial Kitchens

Commercial kitchen furniture, equipment and related products for hospitality and food-service operations

09

Oil & Gas & Energy

Industrial products and materials supporting oil, gas, energy operations and related infrastructure requirements.

Why Alyaan Global

A practical trading & supply partner built around reliable sourcing, clear coordination & dependable execution.

Established Experience

Established in 2007, with experience across international sourcing, trading and industrial supply.

Flexible Sourcing

A requirement driven approach that allows us to source beyond standard product categories where suitable opportunities exist.

International Reach

Access to established suppliers and trade networks across Asia, the Middle East and selected international markets.

Coordinated Supply

From procurement and quality coordination to logistics, customs and delivery, we help manage the key stages of the supply process.

Responsive & Accountable

Clear communication, responsible commitments and hands-on coordination throughout each transaction.

LET'S BUILD YOUR SUPPLY CHAIN.
